ABOUT SHOW

Welcome to Bangladesh Leather & Footwear Expo-2025

The 09th International Bangladesh Leather & Footwear Expo is returning to the International Convention City Bashundhara, Dhaka, from July 24 to 26, 2025. This fair is one of the premier exhibitions for the footwear and leather industry. Various types of advanced shoe-making machinery, leather goods machines, knitting machines, automation production lines, shoe materials, leather, synthetic leather, chemicals, materials, and more will be showcased at the expo.

Currently, Bangladesh has 220+ tanneries, 2500 footwear manufacturing units, and 90+ large firms, which are directly involved in the leather goods and leather sector. Bangladesh exports leather goods and leather to more than 50 countries.

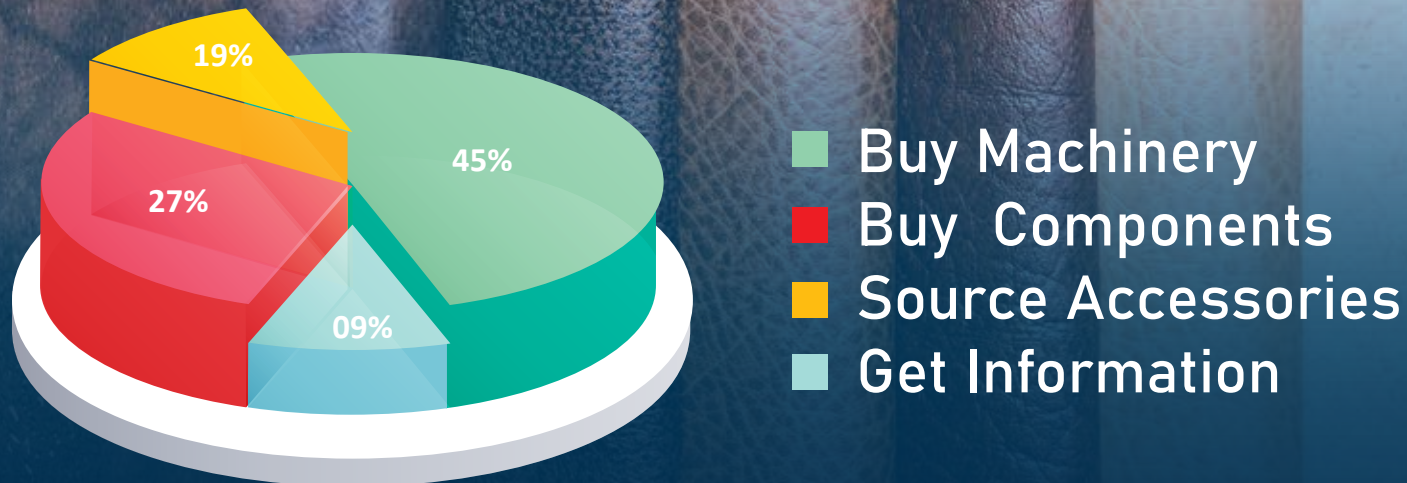

One of the largest manufacturing industries in Bangladesh is the footwear industry. Over the past decade, the industry has been growing steadily. Significant economic growth, increasing consumer purchasing power, and increasing fashion consistency are the main reasons for the growth of this industry. In recent years, the sector has also been able to make some investments, which have helped increase production units and increase production capacity. At present, Bangladeshi shoe makers have created their position in the foreign market by meeting local demand.
